QUALITY CONTROL & FOOD SAFETY

At Nagwade Global, we prioritize food safety through stringent quality controls at every stage of production. Our comprehensive food safety management focuses on **Critical Control Points (CCPs)** and **Operational Prerequisite Programs (OPRPs)** to ensure international compliance.

CRITICAL CONTROL POINTS (CCP)

- **Temperature & Time Monitoring:** Closely monitored during 1st and 2nd stage dehydration to prevent microbial growth and preserve natural pungency.
- **Final Product Testing:** Each batch undergoes rigorous testing for moisture, particle size, and microbiological parameters before leaving the facility.

MACHINERY & OPRP CONTROLS

- **High-Precision Metal Detectors:** Industrial metal detection systems ensure thorough contamination control prior to packing.
- **Optical Color Sorting Machines (OPRP):** Advanced optical sorters detect and remove visual impurities and foreign matter for uniform color consistency.

QUALITY ASSURANCE & HYGIENE

FARM-TO-DISPATCH TRACEABILITY & HYGIENE PROTOCOLS

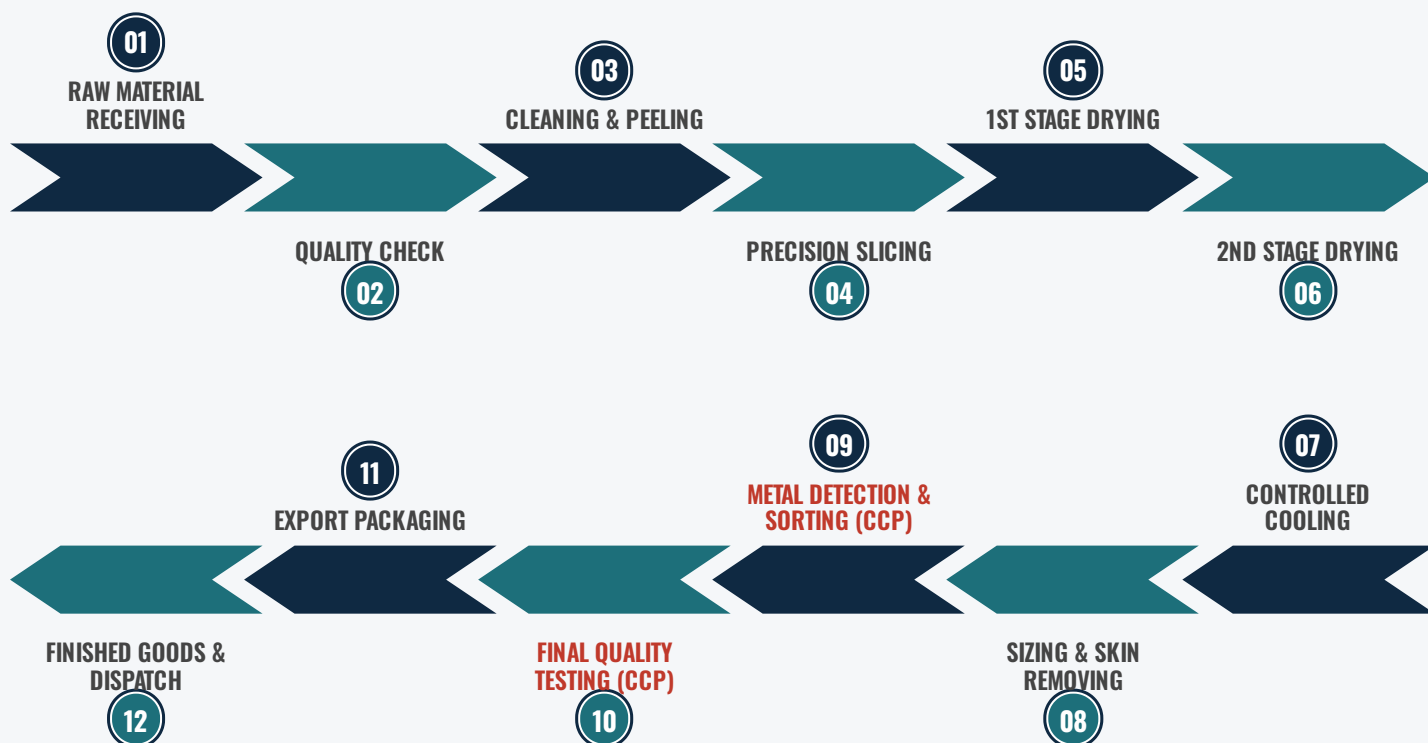

FACILITY HYGIENE & SOURCING

- **Sanitation Protocols**
Strict GMP & SSOP protocols followed across all processing and packing areas.
- **Pest Control Management**
Robust preventative pest control systems maintained to prevent contamination.
- **Supplier Quality Assurance**
Approved vendor and grower program with full traceability from Maharashtra farms to finished export cartons.

QUALITY CONTROL & WORKFORCE

- **100% Batch Testing**
Every batch tested for microbiological parameters, moisture, foreign matter, and mesh/size specifications before dispatch.
- **24/7 Monitoring**
Continuous in-process monitoring ensuring compliance with global food safety standards.
- **Trained Staff**
Skilled quality and processing professionals operating under strict hygiene standards.
